@keynvor

Howdy partner!

Thank you for requesting this pack, and more importantly, thank you for choosing an eco product. It makes a difference.

Our candles are made in a place that inspires the open minds, the trail seekers, lovers of the wilderness, and the freedom found in the unknown. The range we have carefully created transport you to memories of times you have walked that path or manifestations you have yet to fulfil.

We do this knowing this planet we are lucky to find ourselves walking, is safe and cared for through the ingredients, packaging and processes we have made our routine.

DOING SOME GOOD

Keynvor is an environmentally conscious brand, based on the west coast of Cornwall. Being a coastal company, the ocean & nature is at the heart of everything we do. We make quality candles that enhance your space.

We pride ourselves on our ethics and have a responsibility to do our part and look after the planet, as well as making impeccable products.

BORN FROM ADVENTURE

From the rich exotics of the East to the aged forests of the West, our candle scents will take you across the ocean to the first point of sunset, over warm sands, and down a forgotten trail of the past, through to the never-forgotten breath of the Australian Eucalyptus tree.

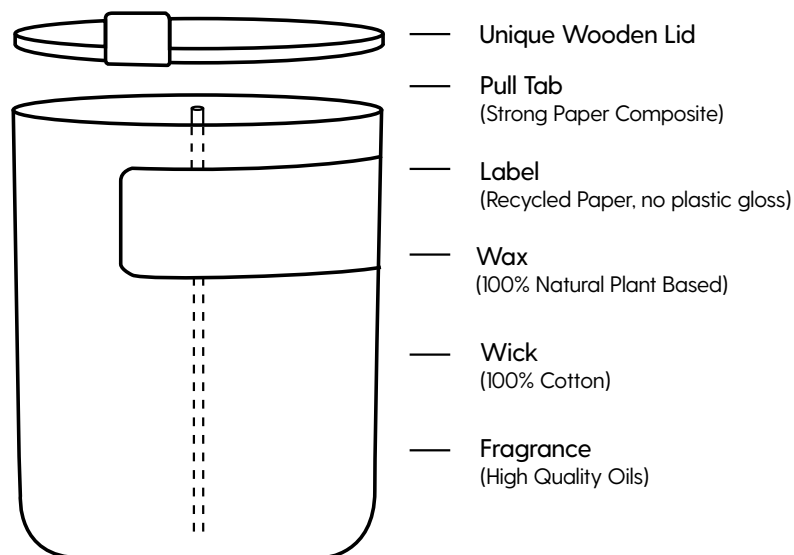

Which direction will you choose?

That deep breath you take when you arrive in your chosen place of sanctuary is where we hope to take you each time you light one of our candles.

MATERIALS

We only use top quality, sustainable materials. This ensures we make a product you can trust and rely on without zapping our planet's resources.

Also, we are totally plastic free! We have worked incredibly hard to eliminate the use of any plastic, from production and postage. We would like you to carry this on if possible, that stuff gets everywhere.

CARBON OFFSET

We are proud to work with THG (more:trees), a global tree planting initiative to ensure we offset more carbon than we produce. You can find out more here [moretrees.co](https://www.moretrees.co)
